

On Wednesday, Sept. 21 at the Westview Retirement Community, the third grade class from Perkins County Schools walked over to visit with the residents along with their teachers Cindy Regier and Pennie Reese.

Each student was given the opportunity to ask the residents about when they were in school. It was very interesting to see the difference between now and then. It brought back many wonderful memories, even some humorous ones. It was great fun having the third graders visit and it is hoped they will come back soon.
