

*Take to Perkins County Health Services or Grant Medical Clinic now—or donate downtown during Chamber's Christmas open house.*

The community is urged to get behind an effort to make a difference this winter for a child or adult in need of snow boots.

Perkins County Health Services is currently holding the snow boot drive and will also have a collection place at Adams Bank and Trust from 5-6:30 p.m. during Chamber's Christmas open house event.

New or slightly used boots will be accepted and then passed on to the schools and local churches to be handed out to children and adults who need them.

For every five pair donated, Perkins County Health Services will purchase a new pair to give away!

Make this season special for someone by donating a pair of now boots to get them through the winter.
