

On Saturday, April 27, the Red Willow County Household Hazardous Waste team was in Grant to pick up old paint, batteries, used oil and unwanted lawn and garden products. According to Bill Elliot, manager of the team, more items were received this year than in the past. Because of the local interest, the program will be available again in 2014. The program is sponsored by the Nebraska Department of Environmental Quality, Southwest RC&D, Perkins County Commissioners and the City of Grant. (Courtesy photo)
