

Student financial aid is one of the key categories of support provided by the McCook College Foundation to students attending McCook Community College.

All approved MCC courses of study qualify, and students are encouraged to apply by the March 1 priority deadline for academic year 2010-2011.

Students must submit the Foundation Scholarship Application and Essay, along with an official copy of their most recent high school or college transcript, and an admissions application must be on file with MCC.

Selection is based on financial need, consideration of school and/or community activity, student motivation, and academic achievement. The Foundation's Student Financial Aid Committee reviews applications, selects recipients, and sends notification of awards by April 15.

Applications can be obtained by calling the Foundation at 308-345-5233; at the office at 206 East 1st Street; from the guidance counselors at area high schools; the Student Financial Aid Office on the campus of McCook Community College or on the Foundation web site at mccookcollegefoundation.org.

Please remember that completed applications should be returned to the Foundation office by the March 1 priority deadline.

Applications may be submitted after this March 1 deadline up through Aug. 1, and scholarships may be awarded if funds are available.
