

A local non-profit exchange program is inviting local Grant families to host international exchange students for the 2010-2011 school year. The teenage students come from over 30 countries and attend local high schools.

The students have their own spending money and insurance. Host families are responsible for meals, a place to sleep and a nurturing environment.

STS Foundation has a local coordinator that will supervise the student and support the family throughout the school year.

Here are a few of the incoming students who are requesting families. The host family can choose any student from any country.
